

### **EDGE INFORMATION MANAGEMENT PROMOTES NEW VICE PRESIDENT OF IT**

MELBOURNE, FL—August 7, 2017 Edge Information Management has promoted Marc Giguere to a Vice President position within the company.

Giguere has been working with Edge’s IT department since 2003. In 2012, he was named the Director of IT. Giguere manages the growth and development of Edge’s proprietary internet software, WebScreen and the many applicant tracking system integrations. Marc has a B.S. in Management Information Systems from Florida Institute of Technology and an M.S. in Information Technology with a specialization in Cybersecurity.

“Marc has been integral to Edge Information’s growth in the employment screening industry for many years,” says Edge President Joe Langford. “Marc continues to lead his team in expanding our capabilities to bring client driven features and functionality to our WebScreen software and to expand our integration partnerships to include other leading Applicant Tracking Systems within the industry.”

Edge Information Management, Inc., established in 1991, is a privately held national provider of employment screening services dedicated to furnishing employers with accurate background screening, drug testing and electronic i9/e-Verify services at cost-effective rates. Edge delivers services to each client via the Internet through its proprietary software (WebScreenSM), portal or integration with a variety of industry leading ATS Systems. The ability to combine "big business" technology with "small business" customer service is the value most appreciated by its clients. The NAPBS Accreditation exemplifies Edge's dedicated focus on delivering accurate information quickly and in compliance within hiring federal and state regulations.
